

Directions: Read the boxed scenario. Then use it to complete the graphic organizer and write your preferred solution.

Problem: Promises

Kevin promised to help his younger sister Lisa learn to ice skate on Sunday. Then his boss called offering him free tickets to see his favorite pro hockey team that the same afternoon. Kevin doesn't want to break his promise to his sister. At the same time, he is thrilled about the chance to see the team play and is worried about offending his boss.
